

Reminder: Women's Preventive Services

This is a reminder that for plan years that begin on or after August 1, 2012, non-grandfathered plans are required to cover women's preventive services without cost-sharing. The mandate applies to the following services:

- Well-woman visits
- Gestational diabetes screening
- Human papillomavirus (HPV) DNA testing for woman aged 30 and older
- Sexually transmitted infection counseling
- HIV screening and counseling
- FDA-approved contraception methods and contraceptive counseling (subject to the religious employer exemption)
- Breast-feeding support, supplies and counseling
- Domestic violence screening and counseling

For a detailed list of the women's preventive services required to be covered, please click [here](#).
